EDUCATION

Masters of Computer Application

Amrita Viswha Vidyapeetham   2021-2023

- **Programming Languages:** Proficient in languages such as Java, C++, Python.
- **Web Development:** HTML, CSS, JavaScript, and frameworks like React or Angular.
- **Database Management:** MySQL, NOSQL, or other database systems like MongoDB.
- **Software Engineering:** Understanding of software development life cycle (SDLC) and software engineering principles.
- **Algorithms and Data Structures:** Knowledge of algorithms, data structures, and problem-solving skills.
- **Networking:** Understanding of networking concepts, protocols, and security.

WORK EXPERIENCE

Specialist   Dec 2021 - Current

Sterling Information Resources

- **Research and Analysis:** Conduct in-depth research to gather and verify information from various sources, including databases, institutions, and references. Analyze findings to ensure accuracy and consistency.
- **Verification Process:** Lead and execute comprehensive background verification processes for clients, ensuring compliance with relevant laws and regulations. Verify information such as employment history, education credentials, criminal records, references, and identity documentation.

PROJECTS

1. Restaurant Website

- **Front-End Development:** Developed a responsive User Interface (UI) for Little Lemon Restaurant website using HTML, CSS, and React JS.
- **React Components:** Utilized React components to modularize and efficiently manage different views of the website.
- **Reservation System:** Integrated a pop-up window using React to facilitate restaurant reservations.
- **Responsive Design:** Employed media queries and responsive design principles to create a seamless experience across various devices.
- **Version Control:** Utilized Git for version control, enabling efficient team collaboration and codebase management.

2. Supermarket App

- **CRUD Operations:** The app utilizes Create, Read, Update, and Delete (CRUD) operations to manage product information, user accounts, and order details.
- **Dictionaries Integration:** Successfully incorporated dictionaries to manage product inventory, optimizing data organization and retrieval.
- **Error Handling:** Implemented robust error handling using try-except blocks, enhancing the system's resilience to user input errors.
- **Item Management:** Developed functionality for users to view existing items and seamlessly add new products to the inventory.
- **Item Editing and System Exit:** Enabled users to edit existing items for updates and modifications, contributing to a flexible and user-friendly system.
